

The Reading by Science Morphology Screener:

The purpose of this assessment is not to screen for risk or for evaluation. The purpose of this assessment is to help teachers assess whether or not struggling readers could benefit from specific morphology lessons, within the Reading by Science morphology scope and sequence.

Each section of this screener includes words that use morphemes from a corresponding unit. Ask students to independently spell the words within each section. If they score less than 70% we recommend you teach that lesson. Any section in which the student gets 70% or higher on, can be skipped during the intervention procedure.

Unit	Words:	Score
Early Primary Prefixes and Suffixes	Jumping, hopped, bigger, strongest, unclear, reuse, & when	/7
Grade 3 Prefixes and Suffixes	Funny, nervous, magical, fried	/4
